PLUS

PLAY, LEARN AND GROW

with The Plus Programme

Welcome to the Plus Programme

The Plus Programme is a comprehensive early learning programme designed by teachers for children aged 6-48 months. Support your little learners' individual development with the best start to become a curious, independent and creative learner.

The Plus programme provides:

- Bespoke learning resources for you and your child, that mirror and extend their learning in school.
- Videos, including stories, lesson demonstrations, nursery rhymes and much more.
- Exclusive parent talks from specialists, such as speech and language therapists, nutritionists, and mental-health professionals.
- The programme aims to help parents tune into their children's first learning experiences and lay the foundations for our little learners at the very start of their educational journey.

Weekly Home Learning Activities

Each week, you will receive a home learning pack containing everything you need to enjoy fun and educational experiences at home. Resources include activity plans and videos of our early years specialists singing songs, telling stories and modelling activities.

Our activity plans will provide you with clear examples of what your child might be doing and how you can help them extend their learning using the activities in the home learning pack.

Parent Testimonial

"The online material is extensive and very good at providing further imaginative scope to develop activities that keep our child endlessly engaged"

Parenting Programme

Throughout the year we run parenting workshops designed to support you to understand the wider factors that might be influencing your child's development. Examples include sessions on sleep, nutrition, speech and language and transitions.

Workshops are led by early years experts from the early years community including Alexandra Samara, Director of Early Years at Alpha Plus Group.

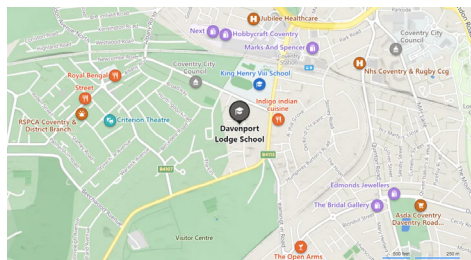

Parent Testimonial

"We have found it very helpful and comforting to be part of the programme, especially when we have had specific questions about our child's development that have been answered very well. I have found the parenting sessions especially interesting."

Location

Davenport Lodge Nursery
School
21 Davenport Road,
Coventry
CV5 6QA

Key information

£45 a month, running all year
except December £22.50
